

**Premier Cylindrical Totally Enclosed Liftbag**  
**50kg to 50 Tonne Lifting Capacity Totally Enclosed Air Lift Bags**

For shallow water and surface floatation, Totally Enclosed Cylindrical bags are ideal for general lifting, draft reduction and static buoyancy provision.

The shackle location and provision of heavy duty straps ensure level lifting on awkward shaped objects can be achieved.

Used in conjunction with lifting beams, cylindrical bags offer support and lifting options for a wide range of applications.

Fabricated from tough 3 ply PVC fabric with a load bearing structural polyester scrim, coated on both sides with PVC for durability & UV resistance.

Radio Frequency welded seams for strength and integrity.

Manufactured in accordance with IMCA D-016 Rev 4:2016 standards

Supplied ready for use, complete with user manual and service record book.

Premier Cylindrical Totally Enclosed Liftbag					
Description	Model	Part Number	Lift Capacity	Length	Diameter
